4. Back cover
5. Emission port
6. Power switch
7. Power off
8. Power on
9. Vibrate/Ion on

BEFORE THE FIRST USE

- Take the product out of the box. Remove the stickers, protective foil, or plastic from the product.
- Clean the product with a damp cloth before using it.

USE

Installing or removing the batteries

The hairbrush uses 2 x 1.5V AAA alkaline batteries (batteries are not included). To install or remove the batteries -

- Press the release button to open the back cover.
- Install or remove the batteries.
- Always observe the polarity of the batteries when installing them.
- Install the back cover by gently pressing it down in place until it clicks.

Using the Ionic Detangling Hairbrush.

- Comb through your hair with a comb or normal hairbrush until it is tangle-free.
- Slide the power switch to the Ions on position **[Ion]**. The power indicator lamp will go on and the Ionic Detangling Hairbrush will continuously release negative ions.
- Alternatively, slide the power switch to the Vibrate/Ions. The power indicator lamp will go on and the Ionic Detangling Hairbrush will begin vibrating while it continuously releases negative ions. Using this helps his promote the blood circulation to your scalp, helping to make your hair healthier.

Note: When the Ionic Detangling Hairbrush is on, there will be "hissing and humming" sound coming from it. This is caused by the vibrations and the negative strontium ion generator and is quite normal. Please use the hairbrush with confidence.

- Now gently brush your hair through for a smooth and shiny result.
- To fully experience the massage function, feel free to apply some pressure with the brush when using the vibrating feature.
- To turn off, slide the power switch to **[O]** off. The hissing sound may continue for a short time until all the negative ions are released.
- Remove the batteries from the hairbrush when it is not in use.

CLEANING AND MAINTENANCE

- Use a soft, slightly damp cloth to clean the Ionic Detangling Hairbrush. Do not allow water or any other liquid to get into the device.
- Use your fingers to remove any dust and hair from the brush pad.
- Remove the brush pad and wash it under a tap.
- Do not use corrosive liquids to clean the brush pad. This will cause damage to it.
- Make sure the brush pad is completely dry before installing it.

Storage

- Remove the batteries and store the hairbrush in cool and dry place.
- It is recommended to use and store this product at temperatures between 15°C to 35°C.

ENVIRONMENT

This appliance should not be put into the domestic garbage at the end of its durability, but must be offered at a central point for the recycling of electric and electronic domestic appliances. This symbol on the appliance, instruction manual and packaging puts your attention to this important issue. The materials used in this appliance can be recycled. By recycling of used domestic appliances you contribute an important push to the protection of our environment. Ask your local authorities for information regarding the point of recollection.
