- To protect yourself against an electric shock, do not immerse the cord, plug or appliance in the water or any other liquid.

-  Surface are liable to get hot during use.

PARTS DESCRIPTION

1. Lid
2. Button to open lid
3. On/Off switch
4. Main body
5. Voltage selector

BEFORE THE FIRST USE

- Take the appliance and accessories out of the box. Remove the stickers, protective foil or plastic from the device.
- Place the device on a flat stable surface and ensure a minimum of 10 cm. free space around the device. This device is not suitable for installation in a cabinet or for outside use.
- The kettle has a dual voltage selector on the underside of the kettle. Always check that the correct voltage is selected before using the kettle.
- Before the first use boil a full kettle of water to clean the kettle and discard this water.

USE

- Set the voltage selector into the position corresponding to the supply voltage.
- Open the lid by pressing the button "OPEN".
- Fill the kettle with water to the "MAX" level mark. The water level must not exceed the "MAX" mark.
- If insufficient water is used, the kettle will switch off, with too much water it may boil over.
- Check if the lid is properly closed.
- Plug in and press switch to ON position.
- The kettle will boil and switch off automatically.
- To interrupt the boiling process, press the switch to OFF position.
- If the appliance is accidentally switched on when empty, the boil-dry protection will automatically switch it off. Adding cool water will cool the boil-dry protection mechanism which enables you to use the kettle as normal.

CLEANING AND MAINTENANCE

- Before cleaning, unplug the appliance and wait for the appliance to cool down.
- Use a soft damp cloth to clean the housing of the device.
- Clean the appliance with a damp cloth. Never use harsh and abrasive cleaners, scouring pad or steel wool, which damages the device.
- Never immerse the device in water or any other liquid. The device is not dishwasher proof.
- The device should be regularly decalcified. Use a descaling product which is suitable for household appliances.
- Rinse the kettle several times with clean water after descaling.

ENVIRONMENT

-  This appliance should not be put into the domestic garbage at the end of its durability, but must be offered at a central point for the recycling of electric and electronic domestic appliances. This symbol on the appliance, instruction manual and packaging puts your attention to this important issue. The materials used in this appliance can be

recycled. By recycling of used domestic appliances you contribute an important push to the protection of our environment. Ask your local authorities for information regarding the point of recollection.
