### SAFETY

- The manufacturer cannot be held responsible for damages resulting from a failure to comply to the safety instructions.
- Do not expose the battery to high temperatures or direct sunlight. Never throw batteries into the fire. There is a danger of explosion!
- Keep batteries away from children. Batteries are not a toy!
- Do not open the batteries by force.
- Avoid contact with metallic objects. (Rings, nails, screws et cetera) there is a danger of short-circuiting!
- As a result of a short-circuit batteries may heat up considerably or even catch fire. This may result in burns.
- For your safety the battery poles should be covered with adhesive strips during transport.
- Do not touch a ruptured and/or leaking battery. If the liquid from the battery gets into your eyes, rinse your eyes as soon as possible with clean water, without rubbing your eyes. Immediately go to the hospital. If it is not treated properly, it can cause eye problems.

### PARTS DESCRIPTION

1. Removable brush pad
2. Power indicator lamp
3. Release button
4. Power switch
5. Battery compartment
6. Handle
7. Emission port
8. Power off
9. Power on
10. Vibrate/Ion on

### BEFORE THE FIRST USE

- Take the product out of the box. Remove the stickers, protective foil, or plastic from the product.
- Clean the product with a damp cloth before using it.

### USE

#### Installing or removing the brush pads

- To remove the brush pad press the brush pad release button.
- To install the brush pad press it down onto the body of the brush. You will hear a click when it is correctly installed.

#### Installing or removing the batteries

The Ionic Detangling Hairbrush uses 2 x 1.5V AA alkaline batteries. To install or remove the batteries -

- First remove the brush pad by pressing the brush pad release button.
- Install or remove the batteries.
- Always observe the polarity of the batteries when installing them.

#### Using the Ionic Detangling Hairbrush.

- Slide the power switch to the Ions on position [Ion]. The power indicator lamp will go on and the Ionic Detangling Hairbrush will continuously release negative ions.
- Alternatively, slide the power switch to the Vibrate/Ions. The power indicator lamp will go on and the Ionic Detangling Hairbrush will begin vibrating while it continuously releases negative ions. Using this helps this promote blood circulation to your scalp, helping to make your hair healthier.

**Note:** When the Ionic Detangling Hairbrush is on, there will be soft "humming" sound coming from it. This is caused by the vibrations and the negative strontium ion generator and is quite normal. Please use the Ionic Detangling Hairbrush with confidence.

- Now gently brush your hair through for a smooth and shiny result.
- To fully experience the massage function, feel free to apply some pressure with the brush when using the vibrating feature.
- To turn off, slide the power switch to [O] off. The hissing sound may continue for a short time until all the negative ions are released.
- Remove the batteries from the Ionic Detangling Hairbrush when it is not in use.

### CLEANING AND MAINTENANCE

- Use a soft, slightly damp cloth to clean the Ionic Detangling Hairbrush. Do not allow water or any other liquid to get into the product.
- Use your fingers to remove any dust and hair from the brush pad.
- Remove the brush pad and wash it under a tap.
- Do not use corrosive liquids to clean the brush pad. This will cause damage to it.
- Make sure the brush pad is completely dry before installing it.

### Storage

- Remove the batteries and store the Ionic Detangling Hairbrush in a cool and dry place.
- It is recommended to use and store this product at temperatures between 15°C to 35°C.

### ENVIRONMENT

This appliance should not be put into the domestic garbage at the end of its durability, but must be offered at a central point for the recycling of electric and electronic domestic appliances. This symbol on the appliance, instruction manual and packaging puts your attention to this important issue. The materials used in this appliance can be recycled. By recycling of used domestic appliances you contribute an important push to the protection of our environment. Ask your local authorities for information regarding the point of recollection.
